

## Seattle Latino Metropolitan Chamber of Commerce

Seattle, Washington – November 10, 2016 (updated)

Press Release: for immediate publication.

Contact: Marcos Wanless - Info@seattlelatino.org

With great enthusiasm we invite you to join the Latino community for the launch of the Greater Seattle Latino Chamber of Commerce aimed to serve Latino business owners and independent professionals. Our immediate goal is to fill the existing void with a grassroots organization that serves as fertile ground for developing progress for Latino businesses. We will become a united voice for the Latino business community creating new possibilities, growth and wealth.

To start this organization we have reached out to gain insight, expertise and advice from many Latino community leaders, and non-Latino government officials plus business owners and professionals from whom we received solid encouragement and support.

### **Vision and Philosophy:**

*Latinos United for Business and Progress* is the vision and motto for the new Chamber. We have witnessed the positive and powerful outcome of standing together, getting organized, embracing our natural differences, ideas and cultures.

### **Mission and Goals:**

Our mission is to bring together Latino businesses and professionals to achieve progress and development; because no one else can help us like we can help ourselves.

Our day to day activities at the Latino Chamber will include: building powerful business networks to create profit and growth. We'll foster a direct connection to educational organizations and government programs designed to advance Latino businesses and provide special tools and events that promote education, unity and progress amongst our members and our community.

### **New International Perspective:**

Seattle is the port of entry for Asia. We want it to be the port of entry for Latino businesses looking to expand from their country of origin to the Northwest. We aim to access the business opportunities happening in our heritage countries. This will add unique value and financial potential for our members and the area.

### **Its time to join us!**

Come be part of our new Latino business owners, future entrepreneurs' and professional's community, join us at [www.SeattleLatino.org](http://www.SeattleLatino.org)
